HR-Series

Sealed Rocker Switches

PRODUCT WEBPAGE

request sample, configure part, watch video

Perimeter Illuminated Low Profile Actuator

The HR-Series comes with a variety of dependent and independent illumination options; momentary and maintained circuits; and up to two customizable laser-etched legends. The patented design supports the various illumination options and allows the switch to be rated up to 20 amps, eliminating the need for relays.

1-2
Poles

20

IP68 Sealing
Above-Panel

Typical Applications

- Marine
- On/Off-Highway
- Lawn Equipment
- Golf Carts
- Outdoor Construction Signage
- Any Application Requiring Sealing Protection

Design Features

20A 12VDC RATING

Robust construction to handle a multitude of electrical loads.

SNAP-IN MOUNTING

Fits into an industry standard mounting hole of 1.450 x .830 in. (Same as V-Series and W-Series)

PERIMETER ILLUMINATION

Choice of independent (full) or dependent (half) lighting, in a variety of colors.

IP68 ABOVE PANEL SEALING

Seals out dust and moisture.

.110 TERMINALS

With dedicated TE connector for ease of installation. Sold Separately. (See General Specs for TE Part Numbers)

MAINTAINED/ MOMENTARY

Circuits available in 2 or 3 positions.

LASER ETCHED LEGENDS

Rocker icons convey a clean, sleek OEM look, with independent or dependent illumination.

Tech Specs

Electrical

Operating Voltage	Designed for 12 Volt systems 9-16 VDC operating
Contact Rating	Maximum 20 amps at 12 VDC
Supply Voltage Ratings	The switch passes the following supply voltage testing: SAE J1455 section 4.13.1 for power-up, operating voltage, over voltage, reverse polarity, and short circuit
Dielectric Strength	Across open contacts: 500 V RMS AC for 1 minute. From pole to pole (on multi-pole variants) 500 V RMS AC for 1 minute.
Insulation Resistance	50 Megaohms
Initial Contact Resistance	10 milliohms max
Life	Up to 100,000 cycles, circuit and load dependent
Contacts	Silver tin-oxide
Terminals	Up to 10 external connector terminals. 0.110" wide silver-plated copper terminals

Physical

Illumination	One or two LED backlit laser marked icons (configurable to be independent or dependent). Uniform full or half perimeter illumination (configurable to be independent or dependent). Dimmable illumination (icons and perimeter), controlled by supply voltage. LEDs rated for 50,000 hour life
Seals	Internal
Base	Nylon, V-0 UL flammability rating
Actuator	Polycarbonate, V-2 UL flammability rating, painted and laser marked
Perimeter Lens	Polycarbonate, V-2 UL flammability rating
Bracket / Bezel	Polycarbonate polyester blend, V-0 UL flammability rating

Actuator Travel (Angular Displacement)

2 Positions	24°
3 Positions	12° from center

Environmental

Sealing	IP68, for above-panel components of actual switch only.
Operating Temperature	-40°C to 85°C The following codes were passed: Cold Soak (IEC 60068-2-1) Heat Soak (IEC 60068-2-2) Cycling/Shock (IEC 60068-2-14)
Vibration	General: IEC 60068-2-6, Swept sine wave section 8.2, 5 - 500 Hz 20 cycles 10g acceleration Resonance: IEC 60068-2-6, Vibration sinusoidal, section 8.1, 10 - 2000 Hz, 5g acceleration Random: IEC 60068-2-64, Method 1, random excitation, 10 - 350 Hz, 5 hours in each axis
Shock and Bump	IEC 60068-2-27, Shock 500 m/s ² 11 milliseconds, Bump 200 m/s ² 6 milliseconds 600 cycles
Salt Spray (Corrosion resistance)	IEC 60068-2-52, Test Kb, Severity level 4 (test duration 336 hours)
Moisture Resistance	MIL-STD-202 Method 103B, Test Condition A (240 hours)
Solar Radiation	IEC 60068-2-5, procedure B, 10 cycles, Total irradiation per cycle = 22.4 kWh/m ²
Chemical Resistance	ISO 16750-5, spray or brush method. Gasoline, diesel fuel, motor oil, brake fluid, Armour all, Windex
Weathering/Cracking Resistance	ASTM D1171-99, method A, 72 hours
Abrasion / Wear Resistance	40 cycles of ASTM F2357 testing with 0.25" paper at 175 grams of force

Connector

Switch mates with TE connector housing part number 1418994-1. Based on application wire size choose receptacle part number below (or equivalent):

1-968849-1	17-20 AWG wire
1-968851-1	13.5-17 AWG wire
1-968853-1	12 AWG wire

Mounting Specifications

Panel Thickness Range	0.062" to 0.187"
Panel Cutout	0.830" x 1.450" See Dimensions (same as V-Series and W-Series)

Terminal Connections as viewed from back of switch:

FULL PERIMETER ILLUMINATION

Perimeter Illumination: Independent 9(+) 1(-) for codes A1 to A7

Rocker Illumination:

2 and 3 Position Switches

A1 Independent	LED 1: 10(+) 1(-)	LED 2: 2(+) 1(-)
A2 Independent	LED 1: 10(+) 1(-)	No Illumination
A3 No Illumination		

2 Position Switch	Position 1	Position 3
A4 Dependent	LED 1: 5(+) 1(-)	LED 2: 5(+) 1(-)
A5 Dependent	LED 1: 10(+) 1(-)	LED 2: 5(+) 1(-)
A6 Dependent	LED 1: 5(+) 1(-)	No Illumination

3 Position Switch	Position 1	Position 2	Position 3
A7 Dependent	LED 1: 5(+) 1(-)	No Illumination	LED 2: 5(+) 1(-)

HALF PERIMETER ILLUMINATION

Rocker Illumination: LED 1 and 2: 10(+) 1(-)

Perimeter Illumination:

3 Position Switch	Position 1	Position 2	Position 3
B1 Dependent	Top Half On 10(+) 2(+) 1(-)	Full Illumination 10(+) 1(-)	Bottom Half On 10(+) 9(+) 1(-)

For a visual representation of the illumination options, see next page.
For custom illumination options, please consult factory.
